

Nikita Sham Bhosale

Satara, Maharashtra — +91 9404835103 — nikitabhosale317@gmail.com

Professional Summary

Detail-oriented and analytical graduate with a Bachelor's degree in Chemistry and hands-on experience in data handling, documentation, and report preparation through internship, training, and academic projects. Proficient in MS Excel, MS Word, and PowerPoint with strong attention to detail and excellent written and verbal **communication** skills. Capable of handling confidential information, maintaining accurate records, meeting strict deadlines, and working effectively in a fast-paced environment. Eager to build a career in Background Verification and Client Operations.

Technical Skills

SQL Database: SQL(JOINS), Aggregations, Data Filtering Sorting, Database Management, SQL Queries

Programming & Data Analysis: Python (Pandas, NumPy, EDA), SQL (Joins, Subqueries, Aggregations)

Data Visualization & BI Tools: Power BI (DAX Basics, KPIs, Dashboards), Tableau, Matplotlib, Seaborn

Machine Learning (Basic): Linear Regression, Logistic Regression, Decision Trees, KNN

Data Handling & Tools: Excel (Pivot Tables, VLOOKUP, Charts), Feature Engineering, Handling Missing Values & Outliers

Statistics: Descriptive Statistics, Probability, Hypothesis Testing, Correlation & Regression

AI Tools Analytics: ChatGPT, Gemini(Google AI), Microsoft, GitHub

Professional Training

Data Analytics & Data Science — Fortune Cloud Technologies

- Training in Python, SQL, Power BI, exploratory data analysis (EDA), machine learning fundamentals, and real-world datasets.
- Worked on structured hands-on assignments and case studies.
- Gained practical experience in data cleaning, visualization, and business insight generation.

Internship

Cravita Technologies Pvt. Ltd

- Completed a structured internship focused on data analysis and data science concepts.
- Worked on real-world datasets involving data cleaning, preprocessing, and exploratory analysis.
- Applied Python libraries such as Pandas, NumPy, and Matplotlib for analysis and visualization.
- Gained exposure to basic machine learning models and model evaluation techniques.

Technical Projects

IPL Match Data Analysis — Python

- Cleaned and analyzed IPL match and ball-by-ball datasets using Pandas.
- Handled missing values, removed duplicates, and standardized inconsistent columns.
- Performed EDA to identify team performance, player trends, toss impact, and venue influence.
- Visualized insights using Matplotlib and Seaborn for clear interpretation.

Project link <https://github.com/bhosalenikita258-coder/IPL-Match-Data-Analysis.git>

Sentiment Analysis Project — Python

- Built a sentiment analysis model to classify text reviews/comments as positive, negative, or neutral using Python.
- Performed text preprocessing techniques such as tokenization, stopwords removal, stemming, and vectorization.
- Applied Natural Language Processing (NLP) techniques using libraries like NLTK and Scikit-learn.
- Trained and evaluated machine learning models for sentiment classification with accuracy analysis.
- Visualized sentiment distribution and insights using Matplotlib and Seaborn.

Project link <https://github.com/bhosalenikita258-coder/Problem-Statement—Sentiment-Analysis.git>

Global Superstore Sales Dashboard — Power BI

- Developed an interactive Power BI dashboard to analyze sales, profit, and discount trends.
- Designed KPIs, slicers, and drill-through reports for dynamic analysis.
- Identified top-performing products and underperforming regions using trend analysis.
- Applied data modeling and transformations for accurate reporting.

Project link <https://github.com/bhosalenikita258-coder/Global-Superstore-Analysis.git>

Education

Bachelor of Science (Chemistry) — Yashwantrao Chavan Institute of Science, Satara — CGPA: 8.15 — 2025

HSC — Arundhati Dhavle Junior College, Satara — 2022

SSC — MKSSS Kanya Shala, Satara — 2020

ADDITIONAL INFORMATION

- Proficient in Microsoft Excel, Word, and PowerPoint.
- Strong written and verbal communication skills.
- Able to work under pressure and meet strict deadlines.
- Willing to work in afternoon/night shifts.
- Committed to maintaining confidentiality, accuracy, and high-quality work.
